Utilizing P2P from the T-Jellybean

1. Locate the “Letter T” beside the T-Jellybean
2. Click to reveal the drop down options
3. From these options you can:
 - a. Import patient records
 - b. Create p2p appointments
 - c. Send patient records
 - d. Send a p2p referral

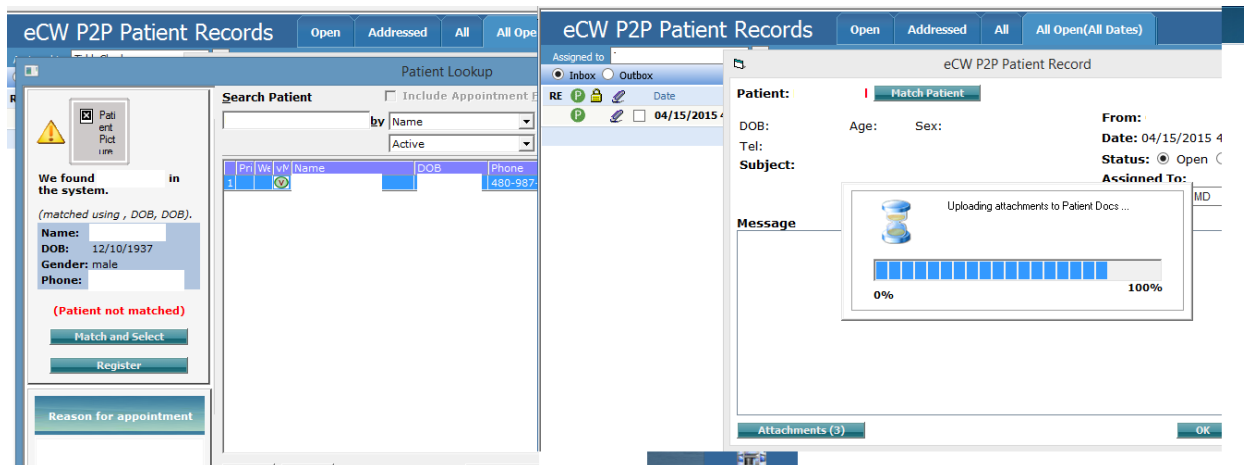

Importing Patient Records

1. Click on the “Letter T” beside the T-Jellybean
2. Select eCW P2P Patient Records
3. Click the line item with the patient name
4. Click on the “match patient” option.

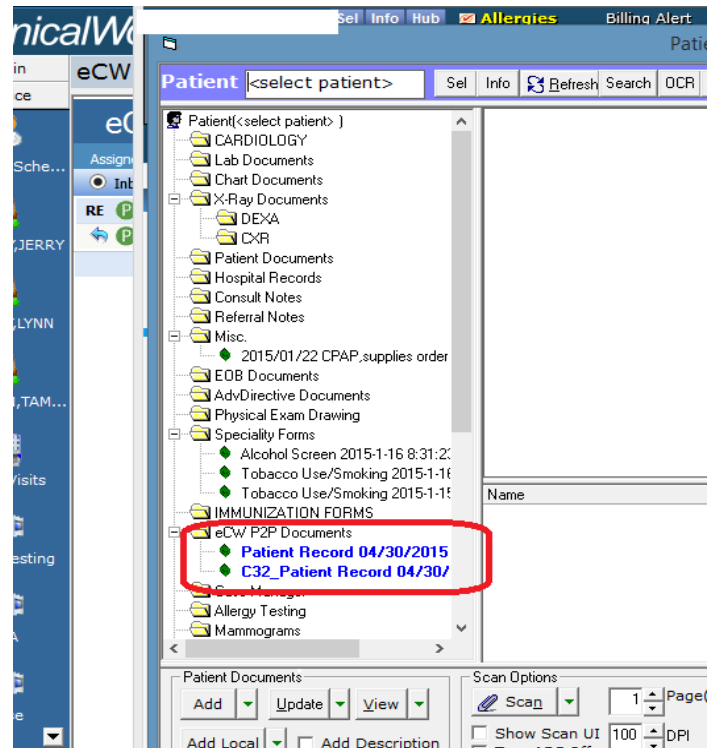

Importing Patient Records (Cont'd)

1. Once matched, you can then import and register the patient
(If a duplicate is found, you will then be asked whether to overwrite)
2. All attached files and charts will then import into the patient documents.

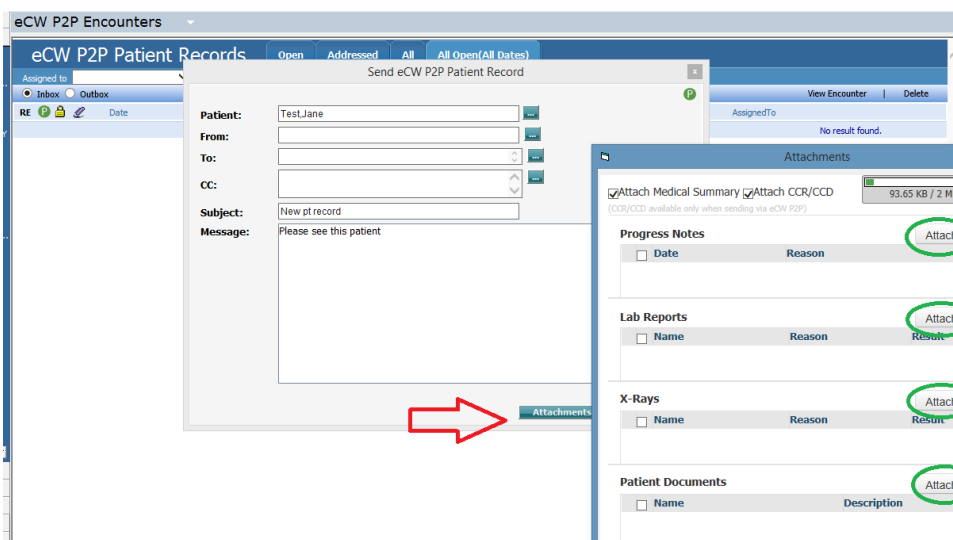

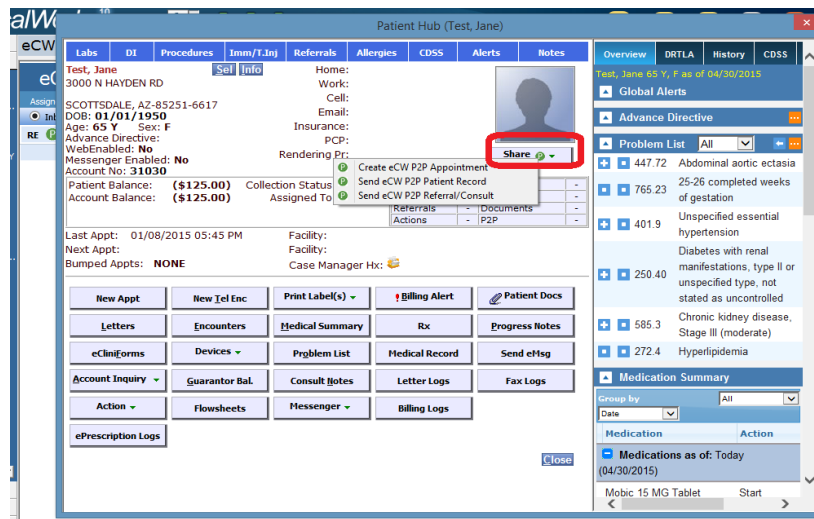

Importing Patient Records

1. Once imported, the files will appear in the patient docs in the “eCw P2P Document” folder

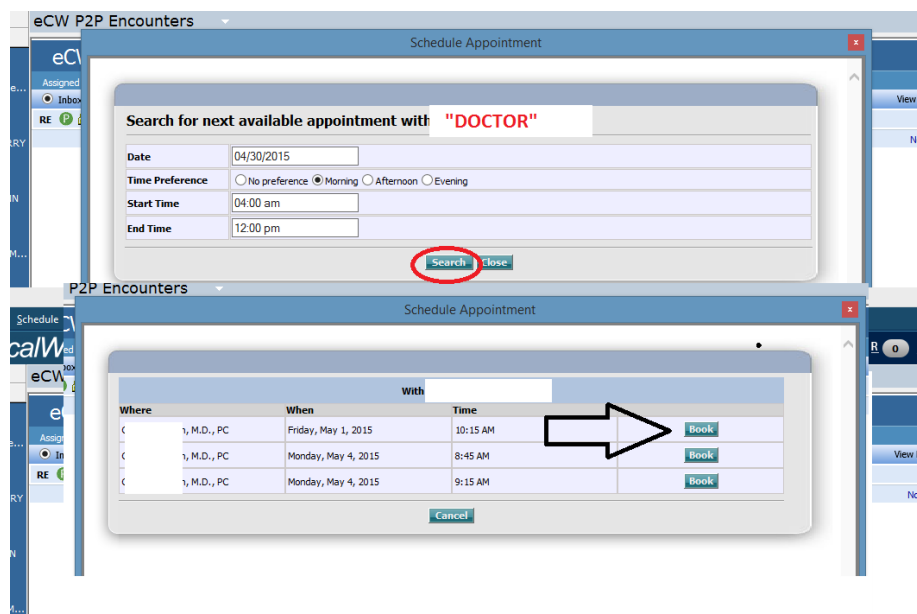

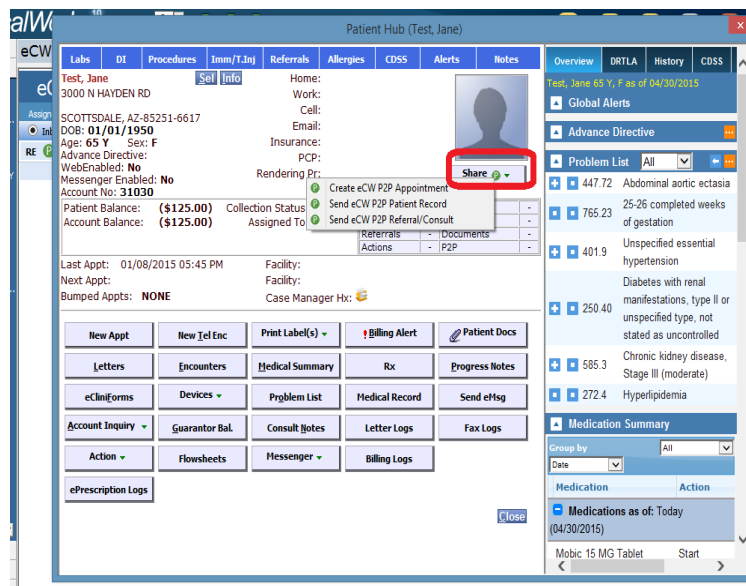

Sending Patient Records Using P2P

1. Navigate to the patient hub
2. Click the share drop down next to the patient picture
3. Click "Send ecw P2P Patient Records"
4. Fill the fields to include:
 - **From** (your provider)
 - **To** (the receiving provider)
 - **CC** (any additional providers to include)
 - **Subject**
5. Click Attachments at the bottom right hand (image 2)
6. Click "Attach" for each of the fields you would like to attach items
7. Click OK when finished to close the attachments window, then click "Send"

Sending Appointment Requests with P2P

1. Refer to steps to access P2P info from the patient hub
2. Click the “Share” option
3. Select “Create eCW P2P Appointment” (Image 1)
4. Search for appointments available with the selected provider (Image 2)
5. Set date, time of day, and start/end preferences
6. Search
7. Click “Book” to the right of the time slot (Image 2)
8. A prompt will then be sent to the recipient provider office to accept the incoming appointment request
